

5 SISTERS Veneto Rosato IGT

Carla, Giovanna, Anna, Maruzza e Isabella Bianchi Michiel are pleased to introduce the new wine that joins Villa Angarano production, the 5 SISTERS rosé. It is a wine that reflects the company's femininity, which is the result of the main red variety here grown, merlot. The pink color expresses the feminine note behind this important project, the result of a careful grape selection and collection, maceration and cold pressing. The aim is to present a unique wine that preserves the peculiarity of its territory and its primary aromas of cherry, peach and white flowers, in order to wrap the palate with an elegant freshness and smoothness. The balance of its taste celebrates the stability and cooperative spirit of women. "5 Sisters" was born from ideas and collaborations among professionals who realized this new project devoted to women. In fact, 5 Sisters supports the breast cancer campaign donating a contribution to this vital cause for women. Some technical data: grape picking at night at a temperature below 16°C. 60-hours grape maceration followed by cold pressing. 2-month alcoholic fermentation at a temperature of 12°C. 5-month on the fine lees. It follows natural wine cleaning and stability.
